EDUCATION

VISVESVARAYA TECHNOLOGICAL UNIVERSITY

Bachelor of Engineering

Specification in Computer Science and Engineering

Cumulative GPA: 8/10; till 6th semester

Relevant Coursework: Data structure; Operating Systems; Algorithms; Artificial Intelligence; DBMS;

Udupi, Karnataka

Expected May 2024

KARNATAKA PRE-UNIVERSITY CERTIFICATION BOARD

Combination of PCMC

Percentage : 88.86 /100

Udupi, Karnataka

June 2019 - May 2020

WORK EXPERIENCE

YBI FOUNDATION

July 2023 – Aug 2023

Artificial Intelligence and Machine Learning Intern

- ✧ Refined machine learning models and applied algorithms to real datasets, driving improved results.
- ✧ Collaborated within a team to enhance proficiency in Python, TensorFlow, and scikit-learn.
- ✧ Sparked a passion for creative technology-driven solutions to complex problems, leading to innovative approaches.

VRISHARYA TECHNOLOGIES

Sep 2023 – Nov 2023

Web Developer Intern

- ✧ Developed proficiency in web development using HTML, CSS, JavaScript, and React.js, acquired through hands-on experience and self-learning.
- ✧ Applied foundational knowledge of HTML, CSS, JavaScript, and React.js to create interactive and visually appealing web pages and user interfaces.
- ✧ Demonstrated ability to problem-solve and troubleshoot coding issues in real-time, resulting in efficient and functional web solutions.

UNIVERSITY PROJECTS

ANDROID QUIZ APPLICATION

Feb 2023

- ✧ Developed a dynamic quiz application encompassing diverse subjects within a single domain.
- ✧ Implemented functionality allowing users to exit the quiz as well as view their final scores.

A NOVEL APPROACH ON OMR USING IMAGE-PROCESSING

Present

- ✧ Developed and implemented innovative system software to automate the manual correction of OMR sheets, reducing workload and improving efficiency.
- ✧ Demonstrated a strong passion for streamlining processes and enhancing productivity through the creation of advanced software solutions.

PERSONAL PROJECTS

WHOLESALE MANAGEMENT SYSTEM

July 2022

- ✧ Implemented a robust wholesale management system for stationary items, utilizing xampp and MySQL for seamless inventory tracking and availability assessment.
- ✧ Successfully integrated the back-end database with the web page, ensuring real-time updates and accurate information display.

E-COMMERCE WEBSITE

Sep 2023

- ✧ Developed a dynamic website utilizing HTML, CSS, and JavaScript to enhance user experience and engagement.
- ✧ Implemented modern design principles to create an aesthetically pleasing and user-friendly interface.

ADDITIONAL

Technical Skills: Good in Front-end development, Javascript, HTML/CSS, C, C++, Python, Machine learning

Languages: English, Kannada, Hindi, Tulu

Certifications & Training: Online Course in HTML, CSS and Javascript for web-developers (Coursera)
